Re: Philip Morris USA May 9, 2000 Submission – Supporting References

Dear Dr. Stratton:

Enclosed please find copies of those references that we were unable to provide to you with our submission of May 9, 2000.

Please note that we have excluded two items. The first item, "Presentation by Brown and Williamson, Lorillard, Philip Morris U.S.A., and R.J. Reynolds to the State of Massachusetts Department of Health on February 16, 2000", is still not available in final form. This will be provided to you as soon as a final report is complete.

The second item, "Chemical and biological studies: New cigarette prototypes that head instead of burn tobacco", is an out of print R.J. Reynolds publication. In the process of negotiating permission for duplication, R.J. Reynolds disclosed to us that they have previously provided copies of this item to you. We have chosen, therefore, not to provide you duplicate copies. If, however, you require additional copies please let me know and I will be happy to coordinate providing them to you.

If you require any additional information with regard to our submission, please let me know.

Sincerely yours,

Valerie A. King
